

THE MAD SCIENTIST
pt THREE
BY
JASON WELCH

On the surface of the water the Black Prince submarine waits for rescue boats to come in with Captain CORWIN observing with powerful binoculars from the main stack. With dorsal fins circling around inflatable life raft the small ships speed back to the submarine and enter a small docking bay that has extended out of the Hull of the submarine, and the sailor climb on Deck .

Eric Youngblood is recovering after being hauled in by the rescue party. .

ERIC YOUNGBLOOD

I can't believe it that was

a great white shark.

skip carmichael

The captain already knows

we've had a warning shot from another submarine

patrolling the area .

They clamber on Deck and along with waves lashing the side and are greeted by CORWIN who leads them through a hatch and down into the flight deck .They walk the main gantry past the ballast tanks onto the flight deck , then through the hexagonal rail to the captain's chair .

SKIP CARMICHAEL

We've been attacked by a

great white shark .

Captain roger corwin All hands brace for Impact
fortunately British Navy is it made of stronger stuff .

CAPTAIN ROGER CORWIN Have you got the ID
on that submarine that attacked us.

PICKALOE It's Russian delta 3 class and
armed to bear with hyperbolic ballistic missiles .

On the main screen SUSAN MENDEZ appears in A beige
suit and cream blouse .

SUSAN MENDEZ What is your next course of
action captain because I've got customers for chameleon
tours waiting for you in Newhaven .

CAPTAIN ROGER CORWIN We are just recovering
from a major attack by another submarine .

PETER ELGIN If you just take your assignment
from Susan Mendes captain .

WALT BASCOM If you send me your report
now I can send it to the Ministry of Defence .

CAPTAIN ROGER CORWIN Helmsman plot a
course for Newhaven

ERIC YOUNGBLOOD if you're leaving the area
I would like to take one of those life raft and catch up with
my shipmates on the cry freedom .

CAPTAIN CORWIN UNITED EARTH
OCEANS has made this area total exclusion zone banning
all ships from entering the area .

ERIC YOUNGBLOOD what like the Bermuda
Triangle ?

CAPTAIN ROGER CORWIN No Mr
YOUNGBLOOD not like the Bermuda Triangle this is
government .Where to head directly to Newhaven .we can't
go through the Panama Canal there too many commercial
traffic .

PICKALOE We have to go down past
ARGENTINA and over the Atlantic .

ERIC YOUNGBLOOD But that's in England I want
to join my team and catch up with the Freedom Fighters on
PHAROH Islands .

CAPTAIN ROGER CORWIN I can give you an

inflatable dinghy and two men .

Mr Carmichael if you can go with Mr Youngblood a speed directly to Ecuador . The captain walks through the guard rail and examines the console manned by his sonar operator .

CAPTAIN ROGER CORWIN Any trace of that submarine patrolling the area Mr piccolo.

PICHALO i 've the capsule but no other sonar blips .

CAPTAIN ROGER CORWIN Dive to periscope depth engage engines hard to starboard and full speed ahead .They leave the captain's Table going through the hexagonal guardrail and through the door to the main gantry and then down to the quartermaster sergeant's office and changing rooms collecting their wetsuits and then climb up the ladder and out on Deck .

They see the dorsal fins of the great white sharks circling the submarine .

They walk down the deck and into the inflatable speed boats .

SKIP CARMICHAEL I passed my navigation and oceanography test before this assignment to the BLACK PRINCE SUBMARINE .

ERIC YOUNGBLOOD I'll let you navigate .
They speed away from the submarine and over the crest of a wave through the choppy waters of the PACIFIC .

The fast motorboat CRY FREEDOM sails over the crest of a wave, avoiding a cyclone in the choppy waters of PACIFIC OCEAN on course for the PHAROAH ISLANDS on full throttle zooming over the open sea with JIM Ferguson at the helm .

The Freedom fighters are in the galley with HAMED at the Global Chemicals Console tracking their progress taking sonar readings and linking with GLOBAL sat NAV.

HAMED We should be there soon .

JIM FERGUSSON All crew get kitted out with walkie talkies Hamed and HEZUS in charge.

The fast motorboat CRY FREEDOM zooms over the Crest of a wave and then slows in the shallow waters of the harbour side.

HAZUS MARTINEZ As we get close to the PHAROH ISLANDS I see tall mountains With a small village on a large plateau below a snow capped mountain range ,Rocky boulders to the left of the shoreline.

The CRY FREEDOM slows as it approaches a wooden jetty and HAMED jumps on as HEZUS weighs the anchor. And the whole team walk towards the village.

JIM FERGUSSON
you and stay in touch.

Keep your walkie talkies on

HAMED And start asking the townsfolk if
there had been any new arrivals.

The Freedom Fighters disperse about town centre along a
single dirt Rd where red brick buildings are spaced evenly
surrounded by a wooden terrace veranda and bright red
check awnings above a first floor enclosed by oak
banisters.

HEZUS leads his team , stepping onto a veranda and
through the louvered doors of the GENERAL STORE .

From shelf stacking near the bay windows a slight man
with a blue apron comes through the overflowing shelves
and opens the counter to stand by the till.

SHOPKEEPER WHAT CAN I GET YOU
BOYS .

HAZUS MARTINEZ Have there been any new
arrivals to your island.

SHOPKEEPER Generally keep themselves
to themselves isn't it right Raymond.

From the back of the shop they hear the back door close .

SHOPKEEPER My boy Raymond is one of
this community , Raymond

where are you your tea break finished 20 minutes ago.

They hear the sound of a door closing from the back of the
shop.

SHOPKEEPER I expect he's popped out for some
fresh air.If there have been any new arrivals, he'll know
about it. A group did arrived and bought the warehouses
on the far side ,some months ago .

HAZUS MARTINEZ We'll have to investigate
them, can you show us the way.

JIM FERGUSSON It's a long walk through the
jungle to get to the warehouses on the other side of the
village.

HAZUS MARTINEZ And if RAYMOND is one
of them he'll warn them we're on our way.

Jim and Hazus leave the general store and meet the rest of

the Freedom Fighters in the town square .

HAMED

We getting the same answer.

SMITHERS

They're all new arrivals

came months ago and took over the complex the other side of the Mountain .

They walk into the main street and then into the jungle area taking a route through the valley.

JIM FERGUSON

Split into two groups like we

did before, Take your group straight through to the warehouse on the other side of the island and I'll scout around the jungle and follow you through .

HAZUS MARTINEZ

If ZAROV is converting

animals then who knows what awaits us further inland .

JIM FERGUSON

Stay in constant touch via

walkie-talkie.

HAMED And his group fan out into the jungle Tropical plants below a forest canopy with small animals foraging in the undergrowth.

Starting investigating they soon come to a forest clearing and are startled to find a large group of gorillas Eating who start advancing on them menacingly.

The young Freedom Fighters run down the hill along a jungle path and come face to face with a Bengal tiger the pads into the forest clearing from a side path.

Running to catch the rest of his group while navigating using the walkie talkies Comes out of the forest onto a grassy plateau before the Mountain Peak where the rest of the team are surrounded by a group of gorillas.

Behind the gorillas a young man looking like Raymond the shopper assistant comes through to greet them .

JIM FERGUSON

You're the lad from the

general store .

RAYMOND

You'll have to give yourselves

up

JIM FERGUSON

That's what we're telling

you .

HEZUS MARTINEZ

You can't hold the world to

ransom .

RAYMOND These animals are all hybrids
created by our leader HANS ZAROV .

created by our leader HANS ZAROV .

JIM FERGUSSON Well it seems you have as a disadvantage .

The whole party walk in front of RAYMOND with gorilas and tigers coraling them through a valley path between mountain peaks .

Out in the open sea just west of the Galapagos Islands the small dinghy speeds towards another group of islands .It's zooms over the crest of a wave and then flows down into the Harbourside ERIC YOUNGBLOOD and SKIP

CARMICHAEL tread water up to the sandy beach pulling the inflatable towards a group of large sandstone boulders. They stow their wetsuits and inflatable in a crevice in the Rocky boulders and start walking along the shoreline to the town.

SKIP CARMICHAEL iF the Freedom Fighters
haven't been captured why haven't they called in .

ERIC YOUNGBLOOD I'll ask the general store and you can asked at the garage near the hairdressers .

He goes into the general store and the proprietor finishes shelf stacking and takes his apron off then walks around to the till .

ERIC YOUNGBLOOD I was just wondering if
you had any visitors to the PHAROH Islands recently .

SHOPKEEPER We get supply it every two months he calls into the back of the shop .

SHOPKEEPER Have you seen any visitors
to the island

Raymond comes into the shop from the back saying [We haven't had any new arrivals for a while]

ERIC YOUNGBLOOD Aright then I'll have two
mars bars and two cans of Pepsi .

They walk back through shelves and onto the veranda then step down onto a dirt road and cross towards a garage just as SKIP CARMICHAEL comes out of the hairdressers with a jar of brilcream.

ERIC YOUNGBLOOD
last 6-months skip .

SKIP CARMICHAEL
them.

ERIC YOUNGBLOOD
inflatable speed boat and check out the warehouses on the
other side of the island .

CARMICHAEL
Yeah good idea I don't
fancy going through the jungle and then through the valley
of the Mountains .

No new arrivals in the

I don't really believe

Let's get back to the
inflatables and check out the warehouses on the

Yeah good idea I don't

On the PHAROH Islands the Freedom Fighters are
escorted by 3 Bengal tigers into a clearing with concrete
base and an aircraft hangar at it's centre .At the main Hatch
men and women in work shirts and denim trousers take
them in to the large conference room with more young
people led by Professor ZAROV .

Raymond comes through the crowd led by 3 Bengal tigers.

RAYMOND
professor ZAROV. We found these in the jungle

HANS ZAROV is a slight man with glasses wearing a
white lab coat surrounded by hybrid animals he's created
in his laboratory .

RAYMOND
looks of them. Too young to be the military by the

HAMED
stop you from threatening the Western world professor
We're soldiers of fortune sent to

ZAROV .

JIM FERGUSSON We've been asked to take you back or stop you from making more of your hybrid animals.

HEZUS That's right, stop threatening the Western world. People want to enjoy the summer holidays without threats of killer sharks on their pleasure beaches.

HANS ZAROV If you insist on capturing the hybrids who have infiltrated your society then they're welcome here on the PHAROAH Islands.

Just then Eric Youngblood and Skip Carmichael enter The Laboratory escorted by two young men in orange boiler suits .

They follow HANS ZAROV over a gray laminated floor to a window overlooking a laboratory containing equipment used in his transformation experiments .

Jim Ferguson places attache case on the table near the window and activates. Peter Elgin appears on the monitor. They observe technicians down below preparing a transformation in plastic containers around a central hub of wires and tubes connected to a power source .

HANS ZAROV In this transformation gallery I've made the most wonderful creatures who are stable and will not revert back to there natural state. And I've my raven submarine patrolling the area and can defend us .

JIM FERGUSSON But eventually your forces will be over run by the military, and it's time you cut a deal before we invade .

HANS ZAROV I imagine you'd like me to call off my attack submarine .

ELGIN I'm to discuss terms of your surrender .

HANS ZAROV I'm asking You to pay for your flagrant misuse of power and abuse of my brethren .

PETER ELGIN We thought transforming your kind into Reptiles and lower species would send a message to slow down your attack on the human race .

ZAROV I was your chief scientist before I fell into the birthing chambers in my laboratory at the ASYLUM .The thought I'd been transferred into one of those Reptiles and sent back to the sands of Nimbus 3 compelled me to Action .

ELGIN Yes our investigation has seen an accident in the laboratory.

ZAROV My latest experiments are producing the most wonderful fully grown specimens .

ELGIN But you can't send killer sharks to American pleasure beaches at the height of the holiday season .

HANS ZAROV I've got a safe haven here that your governments and UNITED EARTH OCEAN can monitor my experiments .All the secrets of my transformation are right here, i destroyed my notes at the ASYLUM .I'd like to make the Pharaoh islands a safe haven we're all hybrid can come when they're captured trying to infiltrate our society.

PETER ELGIN PROFESSOR ZAROV LET ME MAKE A REPORT OF cloning techniques .

ZAROV You'll make the Neutral ground right here on the PHAROH ISLANDS?

PETER ELGIN Give us your research in you'll be allowed to continue .

ZAROV My terms you bring all captured route on to this location in return for which I'll handover all research and development of my advanced cloning techniques .

ELGIN Then I can tell Washington that the crisis is over then,

ERIC YOUNGBLOOD And I can get the cry freedom ready and take us home .

HAZUS We can finally get back to our lives in Cuba.

HAMED I think we're going to be teach

teachers at the sunrise boot camp in Ecuador.
